Features

End-to-End financial management Solutions

KauntaBook offers a unified platform that helps you manage finances, track inventory, and gain insights while providing end-to-end business management.

Automated Bookkeeping

Eliminate manual errors and save time with our automated financial tracking system. Effortlessly record transactions and maintain accurate, up-to-date financial records.

AI Data Entry

Capture transactions instantly with voice commands or by scanning receipts. KauntaBook AI extracts details automatically so you can focus on running your business.

Invoicing

Create and send professional invoices in minutes. Track payments, send reminders, and get paid faster with streamlined billing workflows.

Suppliers

Manage your supplier relationships in one place. Track orders, payments, and contact details for seamless procurement and vendor management.

Service Management

Define and track your services with pricing, categories, and availability. Perfect for businesses that sell time-based or project-based services.

Localization & Languages

Use KauntaBook in your preferred language. Multi-language support helps you and your team work comfortably, no matter where you operate.

Inventory & Cash Flow Management

Keep track of stock levels, monitor cash flow, and manage expenses with ease. Avoid stockouts and optimize financial planning with real-time insights.

Set Budgets, Stay on Track

Easily set budgets for expenses, track spending in real-time, and receive alerts to help maintain financial discipline.

Financial Insights & Reports

Gain real-time insights on income, expenses, and profits. Generate and analyze reports to make informed business decisions.

Multi-Business & Team Support

Manage multiple businesses within one account and collaborate with your team.

Assign different levels of access to managers, cashiers, or accountants.

Collaboration

Work seamlessly with your team by assigning roles and permissions, ensuring secure and smooth financial management.

What every plan gets you

Smart Transaction Management

Record income & expenses with categories, payment methods, and notes. Track partial payments and balances.

Product & Stock Tracking

Add products, link to sales, and monitor stock levels. Know what's selling and avoid losses.

Clear Insights & Reports

Get instant summaries: net balance, cash flow, profits. Generate PDF reports and email them.

Team Collaboration

Run multiple businesses, invite team members, assign roles, and collaborate in real-time.

Offline Access & Cloud Backup

Work offline, sync automatically when online. Secure cloud backup across all your devices.

Testimonials

See what our **happy users** are sharing about us!

"Simple, user-friendly app. This app has really helped me manage my day to day finances. For anyone ready and willing to keep up with their income-expenditure relations, I'd recommend this app. You even get reports. It's awesome"

"Just the basic approach to financial planning everyone needs to try this app and become good financial managers. Thank you so much."

MM

Martin Musoke

"it's simple and direct... which is something priceless"

JJ

James Junior

"App is so good for stock and sales management. Please include expenses and it would be perfect."
